Information deadline for the Newsletter is due by 8 AM on the Saturday prior to the first and third Tuesday of the month. Please email anything you would like posted to info@ashtonidaho.com or leave a message at 652-3355.

Business Spotlight:

In the beginning there were gasses and solids, water, rain, volcanoes, finally trees, a river, fish (cutthroats), Native Americans, settlers, ranchers,

loggers, recreationists, and finally—Bill Manlove. Bill, the **Henry's Fork Foundation** founder, first visited the Henry's Fork in the 1960s after having read about it in an outdoors article. He was an avid fly fisherman and cared a great deal about the environment. After his retirement in the U.S. Air Force, his wife, Rita and him built a home on the Henry's Fork. While living on the river in North Pinehaven he became concerned about the rapid degradation of the Henry's Fork. These multiple threats to his beloved river were the battle cry that resulted in the organization of the **Henry's Fork Foundation** in 1984. Since 1993 they have co-facilitated the Henry's Fork watershed council with the Fremont/Madison Irrigation district. Through working closely as partners with Idaho State Parks, Idaho Fish & Game, and U.S. Forest service much has come from one man's dream and many other's passions. **The Henry's Fork Foundation** now employs 8 people from our area and have 2400 members from around the world. They just moved into their new location on Main Street which was donated to them from a couple of their members.

June is when they host their large annual fundraiser, "Henry's Fork Day" which proceeds go towards helping fund their seven main projects:

- * Improving angler access to the Henry's Fork through collaboration with public agencies and private landowners.
- * Securing higher stream flows at critical times for juvenile trout through a collaborative process that serves as a model for watershed management.
- * Improving river habitat by removing barriers to fish passage.
- * Protecting the watershed by advocating for good land use planning, and working with partners to prevent the spread of invasive species.
- * Leading or contributing to fisheries research projects throughout the entire Henry's Fork watershed with the aim of improving fisheries and angling experience.
- * Educating the next generation for conservationists through Trout in the Classroom, student field days, and student internships.
- * Restoring headwaters at the Henry's Lake outlet, Sheridan Creek, and other tributaries, in order to reduce sediment and restore native Yellowstone cutthroat trout populations.

So as one can see, from one man's concerns and dreams over 4 decades ago much has come of them to preserve the Henry's Fork and many other rivers that surround our area. For more information about the Henry's Fork Foundation's projects or to become a member you can call 652-3567 or visit their website at www.henrysfork.org

City of Ashton News

- ♦ **Ashton City Water users:** Construction on the water project continues. If you would like notices via phone and **do not** have a landline, please visit the city building and give them your cell phone number to be added to their directory. Weekly updates will be available at the city building of road closures and water outages. You can also find information on Facebook if you become a friend @ City of Ashton, Idaho.

108 S. Hwy. 20—Ashton, ID (208)652-7771

A community quilt benefit for the Charlotte Fire Families is scheduled for Oct. 13th @ the LDS Stake Center & Oct. 20th at the LDS Tri-ward building. The time is 9-5 both days. Come and go during the day. Potluck lunch—Yummy @ 1:00. There will be quilts set up to tie. Bring your sewing machine and sew tops together. **Mini Classes:** Debby Mattingly will talk about sewing machine maintenance. Barbara Moon and Katie Berger will teach nine patch pattern and flip and sew pattern. Then you can sew them on your machines. **Items needed:** YOU, material, batting, twin & queen size tops. Everyone is welcome! Please come and enjoy each others company and learn lots of stuff! Questions call: Karin Palmer @ 652-0005, Barbara Moon @ 360-0799, Debby Mattingly @652-3436, or Katie Berger @ 652-0181
*If you wish to donate a finished quilt, please call one of the ladies listed above.

“Am I too old for a booster shot?”

According to the Center for Disease Control (CDC); **Pertussis (Whooping Cough)** causes severe coughing spells, vomiting, and disturbed sleep. It can lead to weight loss, incontinence, rib fractures and passing out from violent coughing. Up to 2 in 100 adolescents and 5 in 100 adults with pertussis are hospitalized or have complications, including pneumonia. For infants, it is hard to eat, drink, or breathe! These spells can last for weeks. It can lead to pneumonia, seizures (jerking & staring spells), brain damage, and death.

*All adults under 65 who expect to have close contact with an infant younger than 12 months of age (including women who may become pregnant) should get a dose of Tdap. A 2-year interval since last dose is suggested, but not required. With the recent outbreak of *pertussis (whooping cough)* in our area, our Ashton Medical Clinic is ready for you to come and get your booster shot today! They will be ready for flu shots in October! Call them at 652-3396
